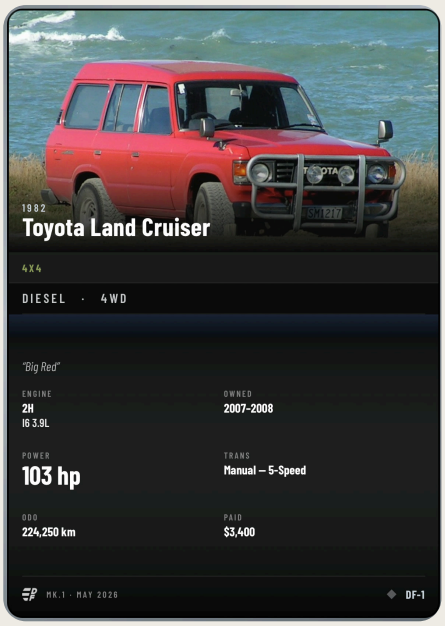
FOR CREATORS

Your garage, as cards your viewers keep.

Driving Forever gives your builds a verified page, with each car as a trading card people collect, follow and spot in person at meets. Every card has its own web page and a code on the back, so a link in a video description takes people straight to it.



The founder's 1982 Land Cruiser, sold in 2008.

A VERIFIED PAGE

Your cars as cards, posts and offers for the people who follow you, and a place under Creators in Community.

THE ONES THAT GOT AWAY

Past vehicles keep their story, what they cost and who has them now. The garage board prints every one of them on one poster.

DF PRO WHILE IT'S ACTIVE

Unlimited vehicles, foil cards and cloud backup, for as long as your page is approved and active.

MADE TO SHARE

Each card goes out as an image, a story or a link, and the code on the back opens it on the web.

WHO IT'S FOR

Creators with an established following, posting mostly about cars, bikes, boats or other driving machines. Apply in the app under Settings, Partners. A person at DF reads every application, and pages are free for now.

WHAT WE ASK

One amazing thing a year, gifted to a member who couldn't buy it themselves. Your call, your scale.

DRIVING FOREVER

Every car in your life, kept properly.

A record of every car you've owned, a trading card for each one, and the clubs and meets around them. iPhone and Android.

The cars you own, the ones you sold, the ones you want and the ones you still think about.

Driving Forever keeps a proper record of each one: photos, receipts, what you paid and the day it left. Each one can become a trading card that people collect, spot in person and get signed.

Around that sit the records owners actually keep, clubs and meets, and the gear you ride and drive in. Most of it is free. It is made in New Zealand.

We preserve your driving past. Together, we preserve our driving future.

One garage, four shelves.

Every car sits on one of four shelves, and moves between them the way it did in real life.

My Garage. What you own now, with what it costs you to run.

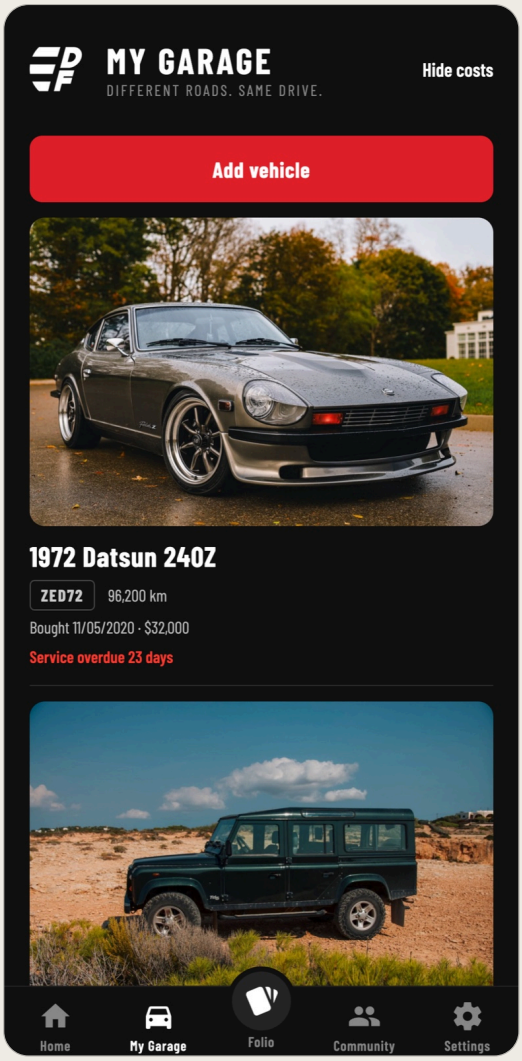
Past. A frozen record of each one you sold: cost to own, cost per kilometre, and what you made or lost.

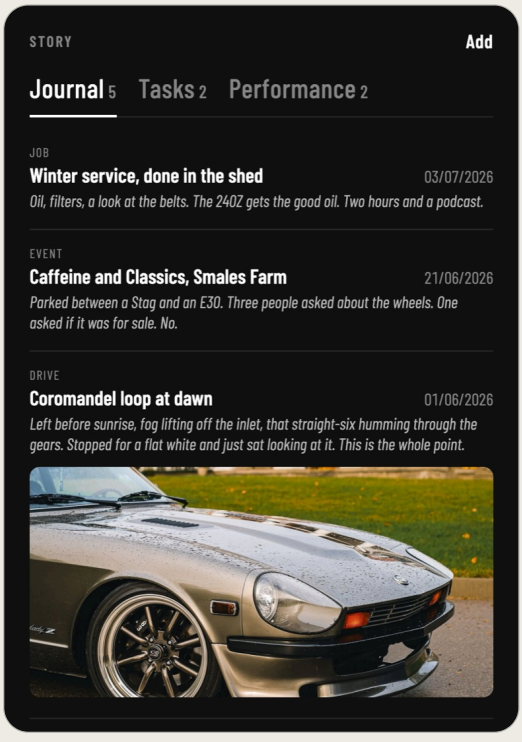
Dream. Stamped NOT YET. Buy it and the card says BOUGHT, with how long you waited.

Remembered. The work truck, your dad's car, a mate's bike. Fuzzy dates are fine.

THE JOURNAL

Each car keeps its own story: trips, jobs and the meets it went to, with photos, in order.





BUILT FOR WHAT YOU DRIVE

Cars first, and the bike or the boat too. Each asks only what fits it.

CAR	MOTORCYCLE	TRUCK	TRACTOR
CLASSIC	SCOOTER	MOTORHOME	MACHINERY
4X4	VAN AND UTE	BOAT	ATV
RACE CAR	CARAVAN	JET SKI	AIRCRAFT
KIT CAR	TRAILER	MILITARY	

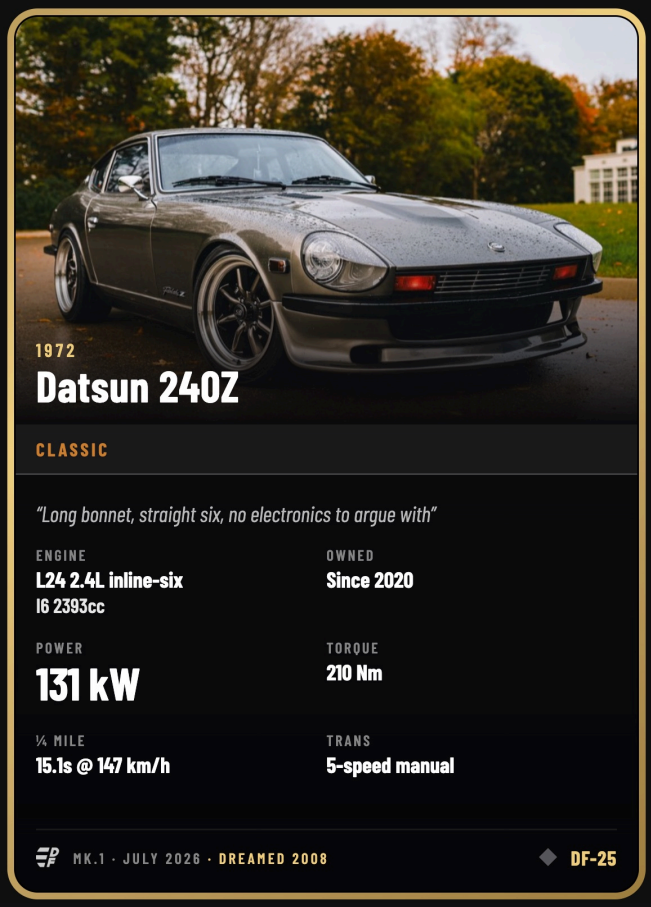
Hours instead of kilometres on a tractor, a hull number on a boat, berths in a motorhome, chain or shaft on a bike.

RECORDS

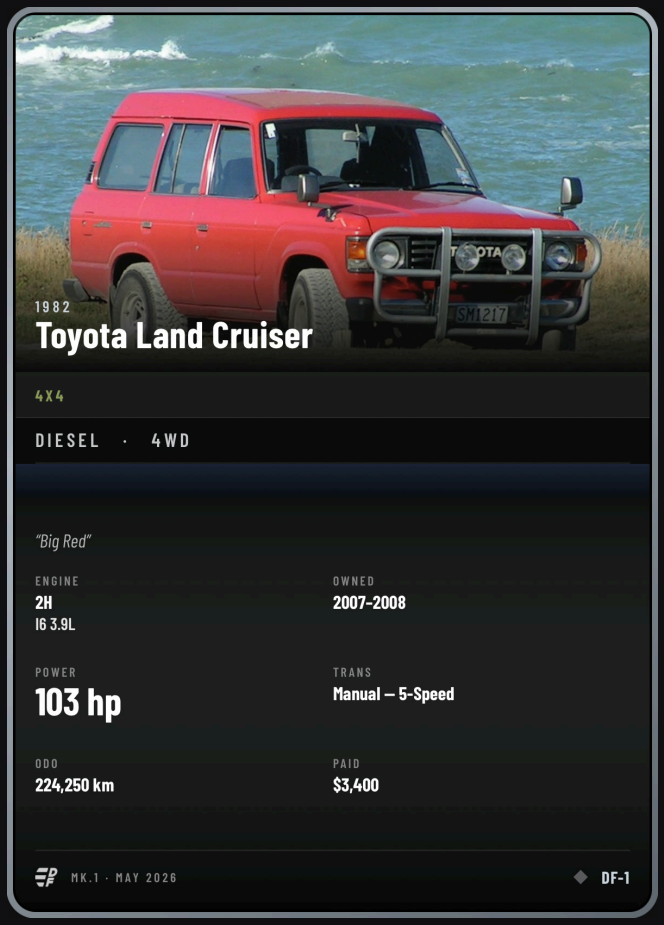
The story, and the costs.

RECORD	WHAT IT KEEPS
Fuel	Scan the receipt, then see economy and price over time. EV charging too.
Service and expenses	Receipts in eight categories, with the next service worked out for you.
Wheels and tyres	Sets and pressures, up to six axles with duals.
Mods and performance	Parts, dyno sheets, quarter miles and lap times.
Journal and tasks	Trips, jobs and photos, in order.
Reminders	Before registration, inspection, insurance and the other renewals.
Gear	Helmets, leathers and kit by discipline, with an inventory for your insurer.

Every car, a card.



Gold: a car you own.



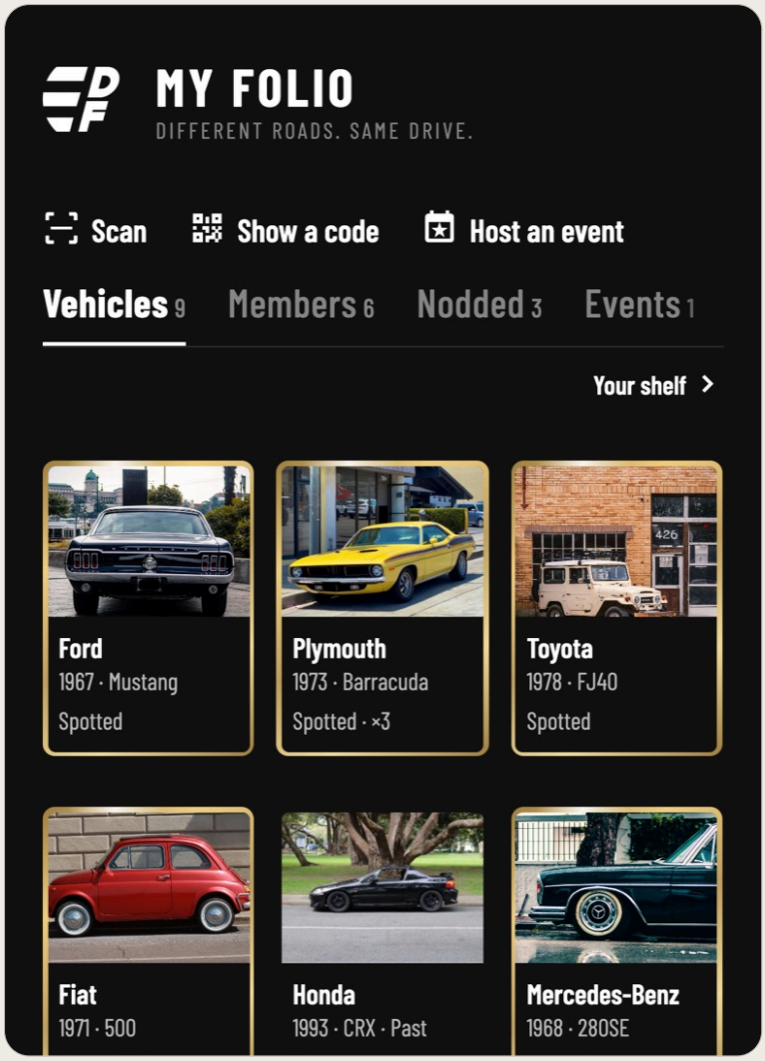
Silver: one you sold. The founder's 1982 Land Cruiser.

Four finishes. Gold for current, silver for past, a cream proof for dreams and a darkroom print for the remembered.

You choose what shows. Plate, odometer and money stay off unless you turn them on.

Ask the Owner. People ask about the car and you answer on the card.

Share it as an image, a story, a link or the code on the back.



THE FOLIO

A binder for the cars you meet.

Collect any card in one tap. Meet the car in person and your copy changes.

Spotted. Scan the car's code at a meet and your copy turns foil, numbered, with where and when.

Signed. The owner signs your copy for you.

Fist bump. Scan each other and you're in each other's Folio.

Places. Check in at venues, with fifteen badges along the way.

The spotting code changes after every scan, so a photo of it is no use to anyone.

PAST OWNERS

A car's history, handed on with it.

Matched privately. By VIN, chassis or plate, and both owners have to agree. Plates and VINs are never stored in plain text.

Invite by link. Ask the person you bought from, or sold to. Record an owner who can't join.

On the card. Previously, later and now with, each one a link.

It has already happened once: the founder's old RX-8 turned up in the app, added by its new owner without being asked, and the two records now point at each other.

Run the club from a phone.

A club page, public or private, with posts, a programme and a bell for members to follow along. It lives in the app and on the web.

HOW A MEET RUNS

1

POST IT

The host puts the meet on the club's programme.

2

SAY YOU'RE GOING

Members tap Going, so the host knows who to expect.

3

CHECK IN

On the day, members scan the host's code.

4

KEEP THE CARD

Each one gets a numbered event card for the meet.

Prints for the day. An event poster and a club sign, each with a code to check in or join.

Applications. A private club decides who joins.

Free for clubs. Clubs, venues and brands host their own events at no cost. Apply in the app, under Settings, Partners.

Checked by hand. Creators and brands get verified pages too. Every post is checked before it shows.

PRINTS AND FILES

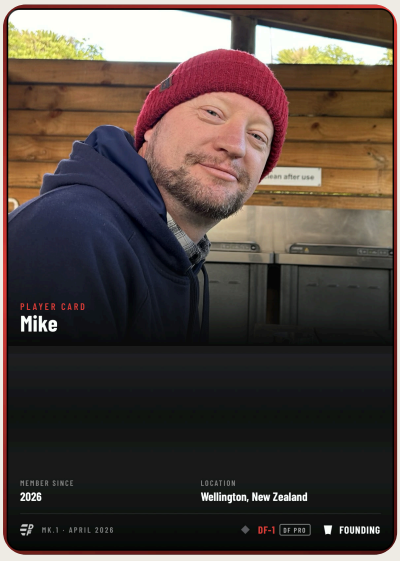
Off the screen and onto the dash.

PRINT	WHAT IT IS
Dash card and tags	Show-day cards with a code people scan to spot your car
Garage board	Every car you've owned on one poster, A4 or A3
Event poster and club sign	Codes for checking in and joining
Player Card and business card	Your Player Card at trading-card size and a business card, on one A4 sheet
Gear inventory	A dated PDF of your kit, for your insurer
Backup and logs	The whole garage in one file, and logs as spreadsheets

Every print is a file you download and print where you like. All of them are free.

THE PLAYER CARD

A card for the driver.



YOUR NUMBER

Numbered in the order members joined. Only the details you choose show.

CONTACT, IF YOU WANT IT

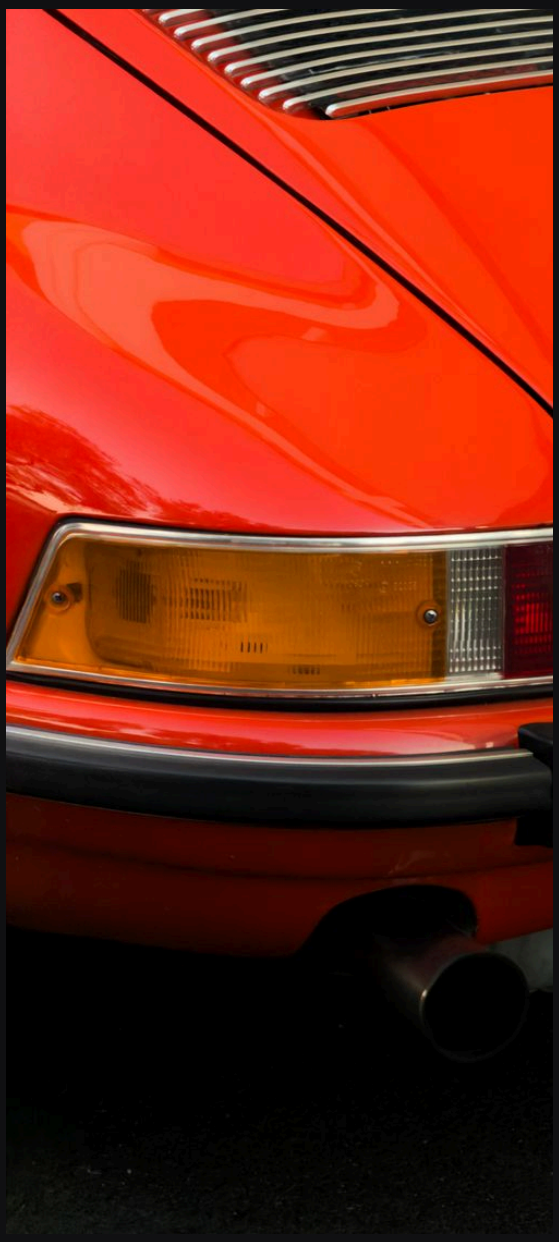
Switch on your email, phone and social links and they print on the back. Leave them off and they stay private.

YOUR PAGE

Garage history, shelf and clubs, on the web with a short link.

ON PAPER

The Player Card at real trading-card size and a business card, on one A4 sheet.



PRIVACY AND SAFETY

Your garage, your call.

Your garage stays on your phone until you publish a card. Even then, the plate, the odometer and the money stay off until you turn them on.

PRIVATE BY DEFAULT

Plates, odometers and money stay hidden unless you show them.

CHECKED BEFORE IT SHOWS

Every card, post and photo is screened before it goes public. Anything flagged stays hidden, and borderline ones wait for a person to decide, every morning.

GONE MEANS GONE

Delete your account and your cards, photos and records go with it.

SEVEN LANGUAGES

English, German, French, Italian, Dutch and two kinds of Spanish.

44 COUNTRIES

Units, dates, currency and local inspection names, set for you.

EASY TO READ

Larger text, screen-reader labels and reduced motion.

Spectator, Free and DF PRO.

Spectators look around without an account. A free account puts you in the driver's seat, and DF PRO adds room and a few extras. Prices are set per country in the App Store and Google Play.

FEATURE	SPECTATOR	FREE	DF PRO
Account	None needed	Free	Subscription
Browse cards in Community, open shared cards	Included	Included	Included
Current vehicles	–	2	Unlimited
Past vehicles	–	3	Unlimited
